PROFESSIONAL SUMMARY

Video Editor and Social Media Content Designer focused on turning raw footage and creative ideas into engaging short-form videos and professional social media content. Experienced in talking-head editing, dynamic captions, B-roll, sound effects, transitions, music, and visual pacing for Instagram Reels, TikTok, YouTube Shorts, personal branding, and social media advertising. Also skilled in graphic design and digital content production.

RELEVANT EXPERIENCE

Independent Video Editor & Social Media Content Designer | *Personal / Independent Projects*

- Create short-form videos for Instagram Reels, TikTok, YouTube Shorts, personal branding, and social media advertising.
- Edit talking-head videos using clean cuts, dynamic captions, B-roll, sound effects, transitions, zoom effects, music, and strong visual pacing.
- Develop UGC-style and promotional video concepts, including AI-assisted production from storyboard to final edit.
- Adapt and resize content for multiple platforms while maintaining clear messaging, visual consistency, and publish-ready quality.

Graphic Designer | *Independent / Personal Projects*

- Create social media posts, Stories, carousel designs, promotional graphics, Reels covers, thumbnails, posters, banners, flyers, and brochures.
- Create marketplace banners, product designs, and Shopee/Tokopedia thumbnails; perform retouching, color correction, and object removal.
- Create T-shirt line art/artwork, trace logos, develop vector artwork, and create layouts.

About me

Hi, I'm Muhamad Bahy Alif!
I'm a Video Editor & Graphic Designer

based in Indonesia. I specialize in CapCut video editing and graphic design for social media, helping brands, businesses, and content creators create engaging and professional content.

I create short-form videos, social media designs, thumbnails, promotional graphics, and branded content. I focus on clean visuals, engaging edits, and content that fits your brand.

I'd love to help bring your ideas to life and create content that looks professional, engaging, and on-brand.

After

AI RAW FOOTAGE

CAPCUT VIDEO EDITING

CapCut Video Editing: From AI Raw Footage to Final Video.

This video was created to educate viewers about "What happens if you don't sleep for three days?".

key contribution:

1. Created the storyboard using Claude AI.
2. Generated each storyboard scene using Google Flow.
3. Once all the videos had been generated, proceeded with the editing process in CapCut.
4. The editing process included cutting and joining clips, adding transitions, using audio FX during transitions, adding subtitles/captions, incorporating B-roll, images, and supporting footage to reinforce the narrator's explanations, adding background music, and applying simple color grading to Scene 6.

AI RAW FOOTAGE

CAPCUT VIDEO EDITING

AI Health Explainer Video Editing in CapCut.

key contribution:

1. I edited an AI-generated educational video about the causes of neck pain and simple self-stretching exercises. Starting from a storyboard.
2. I arranged and refined the AI footage in CapCut to create a clear and engaging visual flow.
3. I added smooth transitions, animated text, synchronized sound effects, ElevenLabs voice-over, and suitable background music.
4. My main focus was improving the pacing, visual consistency, audio balance, and overall storytelling through professional CapCut editing.

AI RAW FOOTAGE

CAPCUT VIDEO EDITING

Affiliate Video Editing | CapCut + AI-Assisted Production

key contribution:

1. Edited a short-form affiliate video for an e-commerce product using CapCut as the main editing software.
2. I selected product images from Shopee as references, created a storyboard with scene directions, AI prompts, and voice-over scripts, then generated raw footage with Google Flow.
3. My main role was editing and post-production in CapCut, including selecting clips, cutting scenes, adjusting pacing, correcting and syncing ElevenLabs voice-over, adding background music, and finalizing the video.

Design Grafis

AI to Vector Art

Adobe Illustrator

AI to Vector Conversion, Manual Illustration, Print-on-Demand Artwork

key contribution:

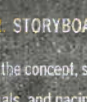

1. Created a custom vector illustration by developing the initial concept with AI-assisted references using Gemini, then manually redrawing and refining the artwork in Adobe Illustrator.
2. I focused on clean linework, shapes, colors, and composition while maintaining the original visual concept.
3. Tools used included the Pen Tool, Brush Tool, Shape Builder Tool, Live Paint Bucket, and Eyedropper Tool.

MY WORKFLOW

01. BRIEF

Understand client goals, target audience, and project requirements.

02. STORYBOARD

Plan the concept, script, visuals, and pacing to build a clear direction.

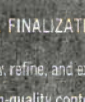

03. PRODUCTION

Collect assets or create footage, graphics, and other materials.

04. EDITING

Edit, add transitions, text, effects, sound, color grading, and more.

05. FINALIZATION

Review, refine, and export high-quality content ready to publish.
